

Senior Executive Team

Biography

Scott Bax

Senior Vice President of Operations

Scott is responsible for the safe and productive operations of Pinnacle's pellet plants located throughout BC.

Before joining Pinnacle in August 2013, Scott acquired over 20 years of forestry experience in various logging and wood manufacturing operations throughout Canada and the USA.

Most recently, Scott was the Manager of Cedar Manufacturing Operations for a large North American forest products company. This included the management of the world's largest western red cedar mill. He also managed a 300,000 m³ start up logging company in Louisiana, USA and was a performance improvement management consultant specializing in the forest sector.

Scott holds a BSc (Environment) from University of Guelph and received his MBA and Master of Forestry (MF) from the University of Alberta.
